Group: Top Down Bois

Date: 19/10/2021

Chair: Samuel Karlsson

Participants: David Ferm, Anders Olofson, Samuel Karlsson, Imad Alihodzic

Objectives (5 min)

- Resolve any issues preventing the team from continuing.
- Short clear descriptions.

Shop needs to be implemented, testing needs to be added.

Reports (15 min) from previous meeting

- Each group member reports outcome of assigned issues, see also 'outcomes and assignments'.

Shop designad, strul med fonts annars har vi en bra struktur
Dokumentation utökad till viss del, viktigt att fortsätta med.

Peer review har tittats på, inte så givande som vi hade hoppats på
men några självklara saker som avsaknad på test klasser har påpekats.

Discussion items (35 min)

- Discuss the identified issues, and possibly new or more general issues (very short notes and/or keywords).

Strax färdiga, bara att fixa shop och knyta ihop resten av koden på ett mer objektorienterat sätt just nu.

Outcomes and assignments (5 min)

- Outcomes from discussion items. Write down what's decided and why it was decided. Sync with other documentation (add terms to wordbook).

Hålla fokus och fortsätta jobba på de sista delarna

- (re)Assign to each group member which issues to solve.

Imad: Implementing shop functionality.

David: Same as above.

Olof: JUnit testing

Samuel: Writing documentation

Wrap up

- Write down any unresolved issues for next meeting.
- Decide a time and location for next meeting.

Nytt möte med handledaren imorgon kl 14
